WHERE SUCCESS MEETS

EXTRAORDINARY

Step into the world of **exhibition excellence** with Adelaide Expo Hire! With a national reputation for exceptional service, we take immense pride in being the only exhibition hire company in Australia to be inducted three times into the esteemed Meetings and Events Australia Hall of Fame.

Our foundation is built on a solid core of strengths, including in-house industrial design, construction, and signage, supported by an extensive and diverse product base. This unique blend allows us to curate **outstanding Custom Displays** that leave a lasting impression.

What sets us apart is our unwavering commitment to go above and beyond for you, our client. We thrive on **attention to detail**, industry, expertise, and a vast network of contacts. Our customer-centric approach is at the heart of everything we do, which is why we continually develop our team of dedicated, experienced, and professional staff.

By incorporating Eco Board and/or our aluminium system in your event, you can make significant strides towards **sustainability**, reducing environmental impact and fostering responsible practices. These materials exemplify the path to greener events, where creativity, functionality, and environmental consciousness merge harmoniously to shape memorable and **eco-friendly** experiences.

Whether it's a local, regional or national, we deliver a superior level of service that exceeds expectations. Our creative team excels in crafting Custom Displays and brand activations, all bolstered by **Australia wide** capabilities and reach.

We transform your vision into reality, providing an extraordinary experience that captivates audiences and elevates your brand to new heights.

Together, let's embark on a journey of **innovation and excellence** that will make your exhibitions and events unforgettable.

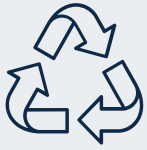

Join us in promoting greener choices without compromising on style and functionality.

Let's build a sustainable future together!

WHY CHOOSE

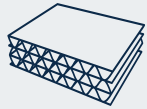

Xanita

ECOBOARD

100% RECYCLABLE & REPULPABLE

The inner core of all Eco Board is constructed of 100% post-consumer, recycled Kraft paper fibres. Eco Board is 100% recyclable.

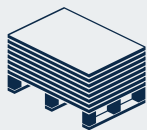

LIGHTWEIGHT AND ENERGY EFFICIENT

Eco Board weighs 75% less than MDF. Its lightweight nature and ability to be flat packed makes it easy and less bulky to package and transport, resulting in reduced packaging and transport-related emissions and a reduction in transport and labour costs for you.

CUSTOMISABLE/ SUSTAINABLE DESIGN

Creative freedom to customise each design to align with your products and brand message. We collaborate with you to ensure that your vision is translated onto this sustainable canvas..

FLAT PACKABLE

Save on transport & labour costs with the benefit of being able to ship flat-packed and assemble material quickly and easily on site.

NON-TOXIC

No toxic resins or adhesives are used in the manufacturing process. Your brand message printed direct onto Eco Board using water-based inks by AEH Signs.

REDUCE YOUR CARBON FOOTPRINT

The production process of Eco Board involves lower energy consumption and carbon emissions compared to traditional display materials, making it a greener alternative for events.

THE ADVANTAGES OF
Xanita
ECOBOARD

Eco Board is a remarkable lightweight yet highly durable material that can be cut into any desired shape. Our expert sign team directly print eye-catching designs onto this versatile board. The best part is that Eco Board is 100% recyclable, making it an environmentally responsible choice without compromising on its professional appearance.

WHY CHOOSE AN

ALUMINIUM SYSTEM

ENGINEERED TO LAST

Endlessly reusable. An aluminium modular stand building system allows for endless reuse, reducing the demand for new materials and minimising waste generation.

RECYCLABLE

Recycling aluminium does not compromise any of its unique properties and uses only 5% of the energy used to create the original product. 75% of the frames produced are made from recycled aluminium.

LIGHTWEIGHT AND ENERGY EFFICIENT

Aluminium's lightweight properties lead to reduced transportation related emissions, making the frames an energy efficient option for event logistics.

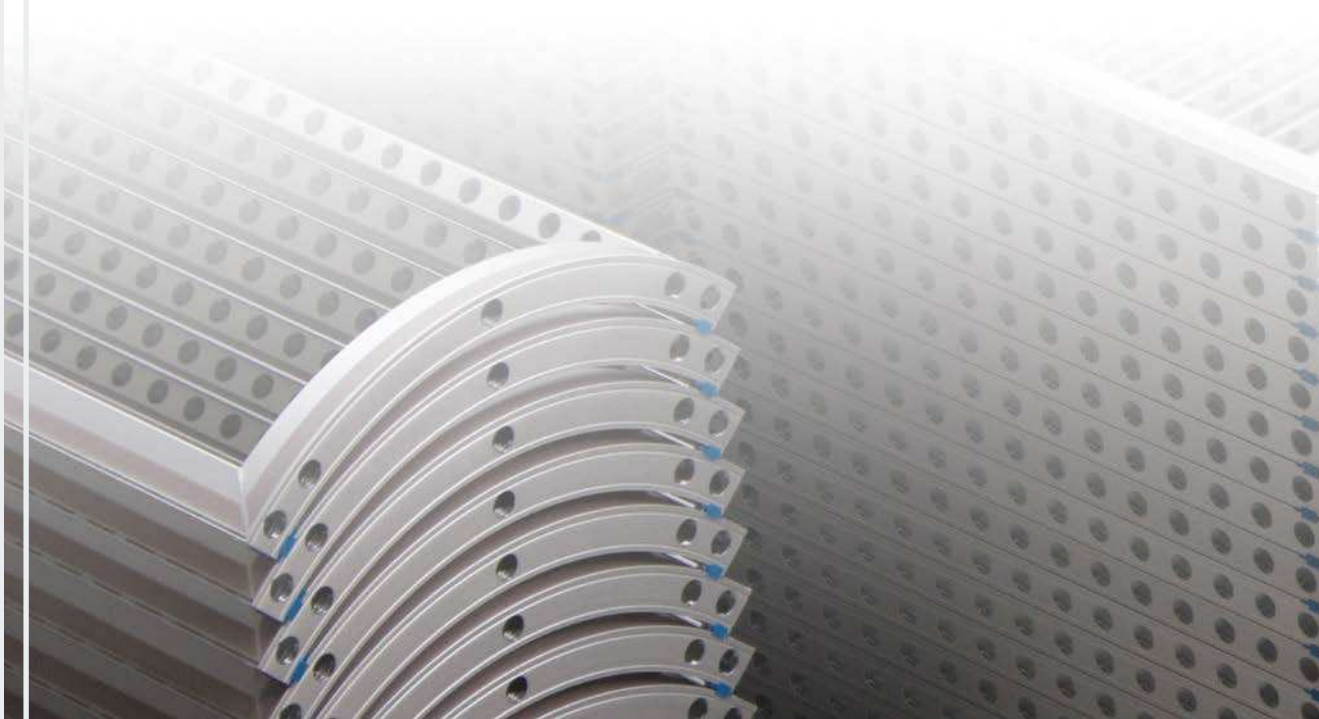

DESIGN FLEXIBILITY WITH MINIMAL WASTE

The modular design of an aluminium system offers endless combinations and creative possibilities, facilitating efficient use of materials and minimising wastage.

SMART CHOICE FINISHING

The decorative finish of the product ensures a maintenance-friendly material as the natural separation of grease (inherent to aluminium) is stopped. No greasy fingers, less need for soap and water.

THE ADVANTAGES OF AN

ALUMINIUM SYSTEM

Our aluminium system is an innovative modular stand building option, which has been designed with sustainability in mind. The brilliance of this system lies in its endless reusability, allowing you to create an array of stunning designs and configurations. The modular approach not only offers flexibility and creative possibilities but also ensures that you are contributing to sustainable practices by reducing waste.

Modular system

Endlessly reusable

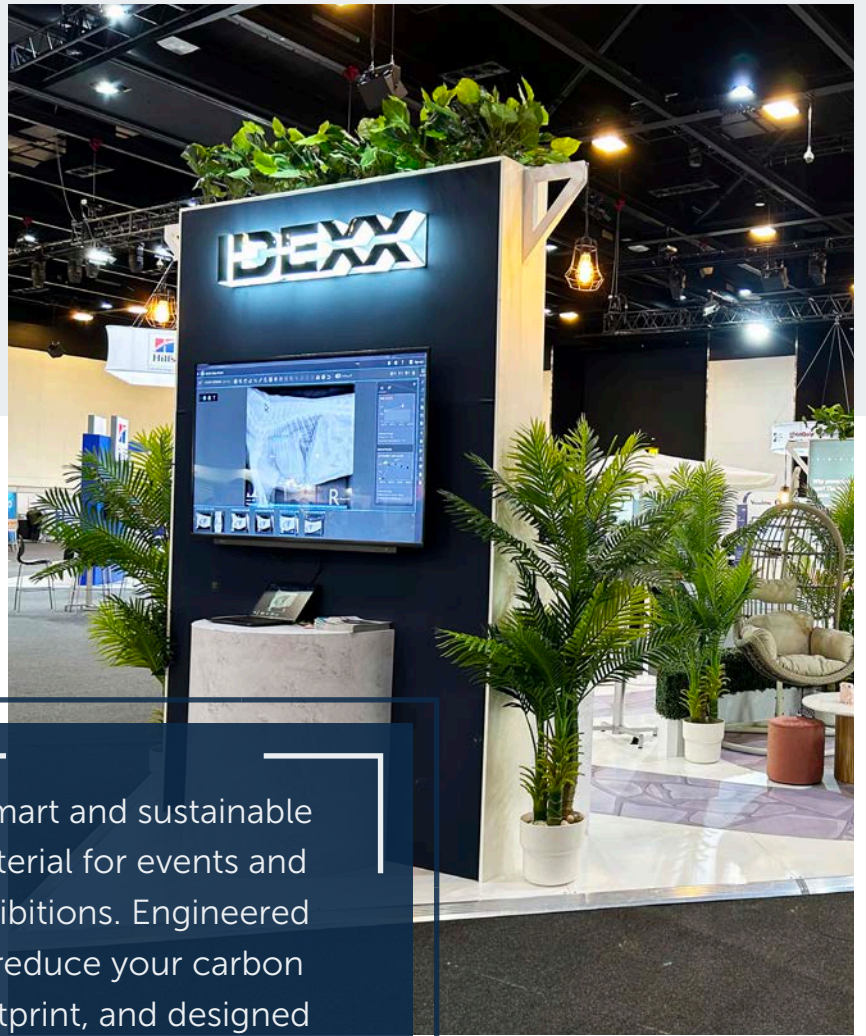

Versatile designs

Fully recyclable

Ideal for large structures

Ideal for rigged banners

A smart and sustainable material for events and exhibitions. Engineered to reduce your carbon footprint, and designed to be a strong green alternative to traditional stand manufacturing.
